2005-2009 Buick LaCrosse Cabin Air Filter Replacement

A video tutorial on how to change out the old cabin air filter on a 2005-2009 Buick LaCrosse.

Written By: eCuration

INTRODUCTION

Most don't know about the cabin air filter but it serves an important role as it filters out pollutants as air enters the vehicle.

The filter should be replaced every 15,000 to 25,000 miles; pretty much once every year.

This short video guide will show you how to replace the filter in your first generation Buick LaCrosse.

TOOLS:

- Flathead Screwdriver (1)

PARTS:

- Cabin Air Filter (1)

To reassemble your device, follow these instructions in reverse order.
